

Dragon Egg™ System (Pair)

- ◆ **Throwable Wire-
less Camera**
- ◆ **Instantaneous 360°
Surrounding View**
- ◆ **Low Center of
Gravity, Self-
righting Design**
- ◆ **Usable in Total
Darkness with IR
Illuminators**
- ◆ **Superior Wall
Penetrating and
RF Range**
- ◆ **NTSC Video
Output**

Using four video cameras per Egg, the patented, throwable, wireless video system provides instant, 360° simultaneous coverage with no need to pan or tilt. Rugged and compact, it can be thrown through windows, over fences, suspended over ledges, or lowered from rooftops to provide instant surveillance, improving the user's situational awareness. The receiver displays a quad view of the surrounding area and, with a built-in compass, an Egg's camera orientation.

Features

*U.S. Patent No. 7,030,929 B2

Camera System

- 4 cameras per Egg
- Color 322K-pixel CCD camera
- Field of view 90° x 110°
- Proven penetration through most structures
- Minimum illumination 0.01 lux
- Self-righting feature provides optimal viewing position
- Analog wireless video transmission at 900 MHz Band

Video Receiver

- Powered by eight AA Alkaline batteries or 12VDC
- Built-in, two-channel, analog receiver operating between 902 and 928 MHz
- High-contrast (150:1), daytime-viewable, 10 cm (4") portable TFT LCD display
- Resolution 160 (RGB) x 234 pixels
- NTSC video output
- View Angle 40° (V) x 90° (H)

Specifications

The system includes:

- 2 Dragon Egg™ throwable wireless cameras
- 1 Blue practice/training Egg
- 1 Multi-channel video receiver
- 1 Tactical soft receiver case
- 1 Battery charger with cables and connector accessories
- 1 Rugged, lockable, storage case

Frequency	900 MHz
Output Power	Up to 1W
Battery Capacity	Transmitter battery more than 1 hours; receiver 4 hours
Range	300 meter (1000 ft) line-of-sight
Certification	Law Enforcement or export only
Shock Survival	2-meter (7-foot) drop onto concrete 32 km/hr (20 mph) bounce from 1.5 m (5 ft)
